A. The purpose of this modification is to:

1. Incorporate Symbol Technologies Inc.'s Contract Change Proposal 0026 (CCP-0026) to substitute a PDCT-C1, Pocket PC operating environment for the existing contract PDCT-C1, Win CE terminal in SLIN's X001QA, X001RA and X001SA. However, see paragraph A.2., below regarding subsequent proposed changes to SLIN X001SA.

2. Incorporate Symbol Technologies Inc.'s CCP-0035 to substitute PDT 7242 for PDT 7240 RF Portable Data Collection Terminals (PDCT's) in CLIN's X001CA, X001CS, X001FS and X001SA. Subsequent to submitting CCP-0026, and before that CCP was incorporated into the contract, the Contractor proposed additional changes to SLIN X001SA. Therefore, this modification reflects the final modified description for SLIN X001SA based on CCP-0035. Additionally, although CCP-0035 as proposed by the Contractor originally included SLIN X001FA, this change was incorporated into the contract via Modification P00024.

3. Incorporate Symbol Technologies Inc.'s CCP-0036 to substitute updated Software Development Kit (SDK) and Application Generation Software (AGS) in SLIN's X015BC and X015CC respectively for the C-Class PDCT's substituted in CCP-0026 .

B. Section B, Supplies/Services, is hereby modified as follows:

1. Sub-Contract Line Items' descriptions are modified (**in bold print**) in accordance with CCP-0026 and the table below:

D. The following Contract section is replaced in its entirety:

Part B-2

Changes in Microsoft Excel are denoted by a bar (|) in the right margin.

E. The Contractor shall provide upgrade or exchange of any existing 27XX PDCT running Windows CE 2.11 with a 27XX PDCT running Pocket PC to any AIT-II Government user requesting an upgrade and with proof of purchase under the contract. The Contractor shall use the PDCT serial number to validate proof of purchase of the PDCT under the contract.

The Contractor shall provide the upgrade or exchange at no additional cost to the Government and in accordance with warranty procedures in Part D-1, Paragraph 9, Warranty, of the contract. The Contractor shall facilitate notification to users of the availability of the upgrade or exchange by posting a notification on the Contractor's AIT-II web site. Any upgrade or exchange provided by the Contractor does not extend or change the original product warranty period as specified in the contract.

The Government will follow the procedures for requesting warranty service when requesting upgrade of an existing 27XX PDCT. The Government will enter the following information in the "Problem Description" block on the Return Materials Authorization (RMA) Request Form:

"Field Flash #BOH-600A. Request upgrade from Windows CE 2.11 to Pocket PC."

F. As a result of this modification, there is no change in the total amount obligated under the contract.
